

Application for Access to Journey2Uni's Online Student Services

J2U Student Services 2018 – Information

Disclaimer:

J2U is a non-profit organisation founded by doctors who graduated from Imperial College School of Medicine and who currently work in UK-based NHS hospitals. All members of the core committee have passed CRB checks in order to work with vulnerable populations in the UK.

What is the information in this application being used for?

All information provided in this application is to assess the socioeconomic status of the student. Our services are only provided to those who fulfil at least one of the eligibility requirements above.

Why are you offering free services?

We aim to provide free services to support and encourage students from low socioeconomic backgrounds to apply for higher education in subjects including medicine and beyond.

We at J2U acknowledge – and have experienced – the structural barriers that students from such populations in the UK face when applying to higher education (e.g. poverty, lack of access to resources, lack of positive role models). Thus, we are providing these services for free to those who fulfil at least one of the eligibility requirements above.

Safety:

All our services are online through the J2U website and students are only contacted through emails that end in @journey2uni.co.uk. Any other email address is not under the J2U organisation. Face-to-face services are **only** offered in the respective secondary schools of students – under supervision of staff at their respective secondary schools – and at no other location.

Please contact admin@journey2uni.co.uk. Please also visit journey2uni.co.uk for more information.
